① Final Goal

When facing disasters or emergencies

Maintain continuous government operation

Sustain the core functions of social livelihood

Support military missions when necessary

② 5 Core Principles

Principle	1. Civil Force Training & Utilization	2. Strategic Material Preparation & Critical Supply Distribution	3. Energy & Critical Infrastructure Operations & Maintenance	4. Social Welfare, Medical care & Evacuation Facilities Readiness	5. Information, Communication Transportation & Financial Network Protection
Core Objective	1. Gradually establish civil force with moderate operational capacity 1-1 Strengthen civil force participation in duties and exercises 1-2 Enhance public-private collaborative capacity	2. Satisfy the basic daily material requirements of the people 2-1 Ensure the provision of food and other critical necessities 2-2 Establish strategic materials inventory and life-support allocation system	3. Ensure the stable operation of energy and critical infrastructure 3-1 Maintain electricity and energy supply 3-2 Strengthen critical infrastructure protection	4. Provide sufficient medical security protection facilities for the public 4-1 Ensure sufficient medical care for the casualties of the military and civilian 4-2 Guarantee proper and safe evacuation for the public	5. Ensure the resilience of critical communications, transportation and financial sectors 5-1 Establish trust-worthy communication platforms 5-2 Ensure secure information and communication systems

③ Implementation Strategies

Principle	1. Civil Force Training & Utilization	2. Strategic Material Preparation & Critical Supply Distribution	3. Energy & Critical Infrastructure Operations & Maintenance	4. Social Welfare, Medical care & Evacuation Facilities Readiness	5. Information, Communication Transportation & Financial Network Protection
Implemen-tation Strategies	1. Train credible civil force and promote *Disaster Relief Volunteers* 2. Establish *Disaster Relief Coordination Center(DRCC)* 3. Conduct realistic simulation exercises	1. Store rations and food to expand wartime food reserves 2. Adjust distribution mechanisms	1. Develop diverse energy sources 2. Strengthen the power grids 3. Strengthen counterterrorism capabilities and infrastructure protection	1. Enforce *Resilient Nation Medical Plan* and assess medical facilities and training 2. Inventory shelters and air-raid evacuation sites 3. Establish emergency life-support facilities for DRCC and villages 4. Enhance fire protection and evacuation facilities in public buildings	1. Ensure information security 2. Enhance cybersecurity capabilities 3. Conduct drills for transportation and financial hubs
